

CABLEX

**Advanced Plastic Moulding:
Complex, 2K & Overmoulding**

**COMPLEX PLASTIC
MOULDING**

**Shaping
the Future
Together**

OUR EXPERTISE

- Plastic injection moulding (50–650 T), including 2K, overmoulding & ultrasonic/hot welding
- Technical & visible parts: 0.6–1900 g | 5–700 mm dimensions
- Prototyping & testing – from design to EOP
- Low to high volume production
- In-house development, tool shop & precision measurement room
- High levels of automation & robotic integration across production

**SIMPLE
MOULDED PARTS**

**COMPLEX
MOULDED PARTS**

OVERMOULDS

2K MOULDS

HOT WELDING

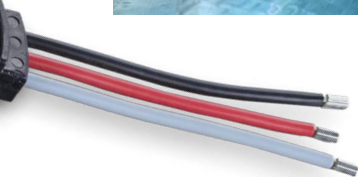

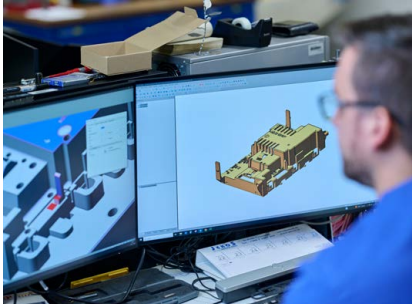

FULL-SERVICE INTEGRATED SOLUTIONS

Assembly, Welding & Custom-Made Processes

From concept to delivery, we offer a complete range of services including product design, prototyping, precision tooling, and advanced moulding techniques. Our automated assembly, welding, and finishing processes ensure consistent quality and efficiency. With integrated quality control and smart logistics, we deliver flawless plastic components tailored to your needs—on time,

We integrate automated systems for regular post-processing, product pickup, and simultaneous measurement. This ensures process stability and control—critical elements for flawless production that adheres to our zero-defect principle.

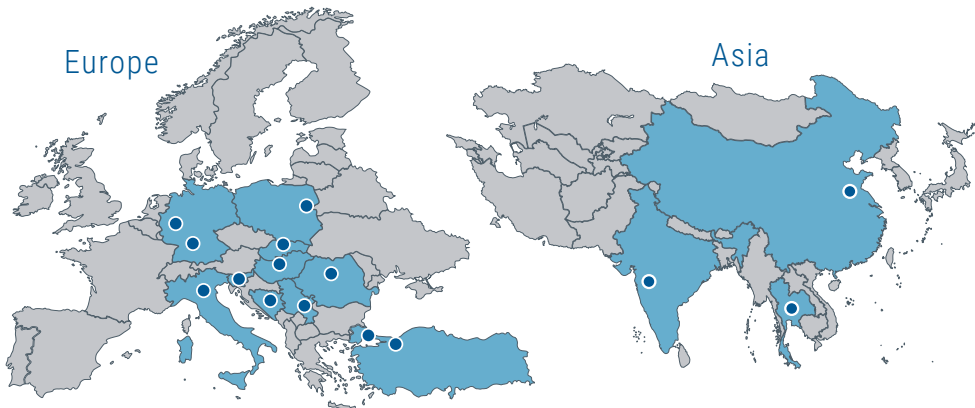

WHY CHOOSE US?

- 20+ years of experience in advanced manufacturing
- From plastic moulding to complete solutions – all under one roof
- Flexible, tailored solutions for plastics, cables, metal, EMS & box build
- Scalable production with next-gen machines & robotic automation
- Every component undergoes functional testing before delivery
- We work closely with customers – from concept to completion
- Strong focus on quality, speed & flexibility
- Certified to ISO & IATF standards

Let's build smarter together.

Contact us to discover how Cablex can support your next project with its innovative plastic solutions.
