

**CABLEX**

The background of the entire page is a high-contrast, blue-tinted photograph of a precision manufacturing process. It shows a robotic arm with a fine-tipped nozzle positioned over a complex printed circuit board (PCB) that is held in place on a conveyor or assembly bed. The lighting highlights the metallic surfaces of the machinery and the intricate patterns of the circuitry on the board.

**End-to-End Support –  
From Prototype to Final Product**

**ELECTRONICS  
EMS**

**Shaping  
the Future  
Together**

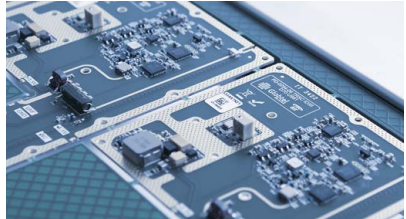

We provide continuous support throughout the entire development process, including:

- Analysis & product development
- Full component & PCB supply chain
- SMD & THT placement and soldering
- Rapid prototyping for validation
- IC programming
- X-ray inspection
- Complete functional testing

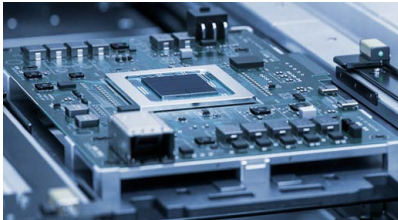

#### DEVELOPMENT & DESIGN

Innovative designs tailored to your specific needs, DFM & DFT

#### TECHNOLOGY INTEGRATION

Advanced technology to enhance product reliability

#### PRODUCTION & ASSEMBLY

High-quality manufacturing processes for reliable products, SMD & THT soldering

#### FINAL TESTING

Rigorous testing to ensure the highest standards of quality

## ALL-IN-ONE EMS CAPABILITIES

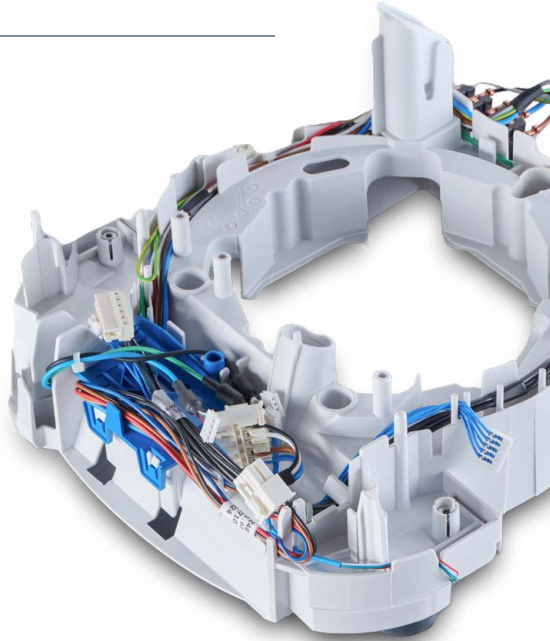

In Cablex, we bring multiple technologies together under one roof, to streamline your product development and manufacturing:

- **Cable harnesses** – Custom solutions for power, signal, and data transmission
- **Plastic components** – In-house moulding for enclosures and structural parts
- **PCB assemblies** – Complete SMD and THT processes, IC programming, and testing
- **Mechanical integration** – Full assembly of electronic and mechanical parts
- **BUILD BOX** – Turnkey system integration, including cabling, housing and final testing

**This integrated approach reduces complexity, shortens lead times, and ensures consistent quality across every stage of production.**

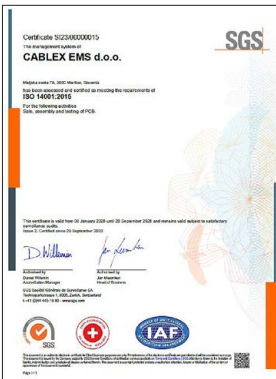

## WHY CHOOSE US?

- **Ready-to-market solutions –**  
From concept to final delivery
- **Fast, flexible & experienced –**  
Responsive to any inquiry or volume
- **Scalable production –**  
Small or medium series,  
simple or complex PCBAs
- **Strong financial backing –**  
Part of Cablex Group,  
enabling fast investment
- **All-in-one capabilities –**  
Cable harnesses, plastics &  
PCBA assemblies under one roof

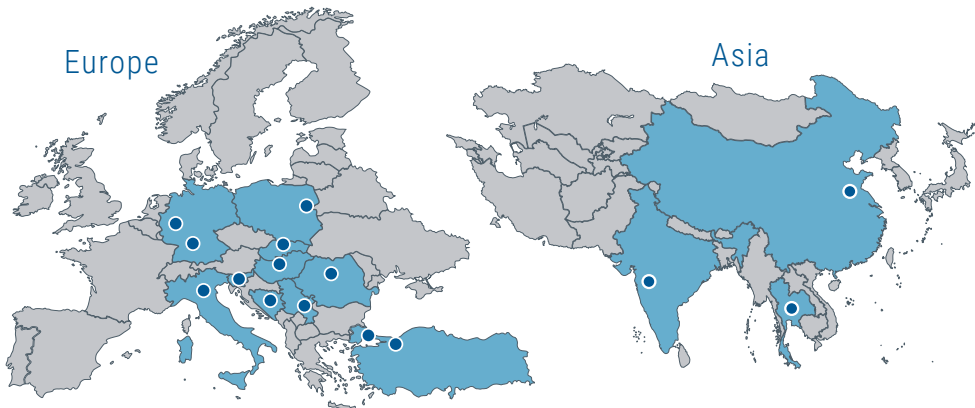

## QUALITY & CERTIFICATES

- Certified in accordance with ISO 9001:2015 and ISO 14001
- Certified IPC specialists (IPC-A-610)
- Our entire production area and process are ESD-protected

# Let's build smarter together.

Contact us to explore how Cablex can support you from prototype to final product.
