

CABLEX

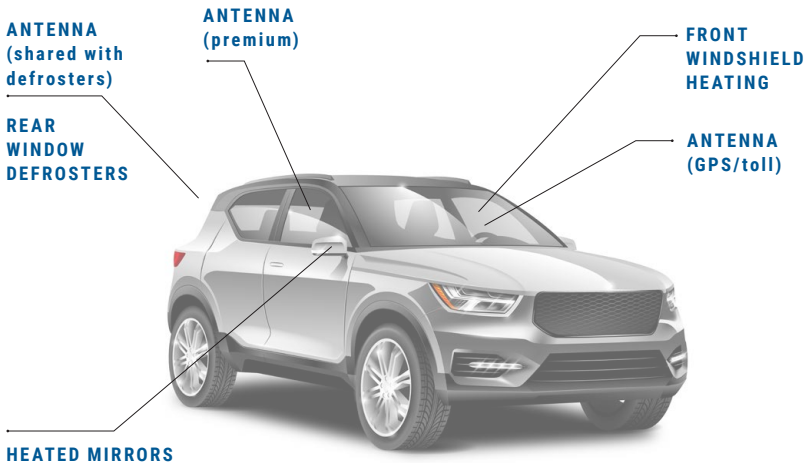

**On-glass Soldering Connectors
for the Automotive Glass Industry**

**ON-GLASS
CONNECTORS**

**Shaping
the Future
Together**

APPLICATIONS

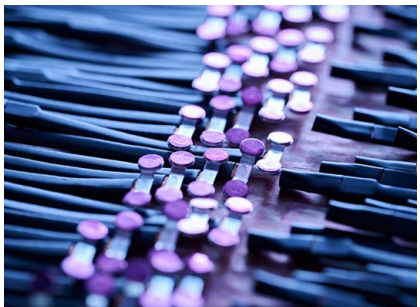

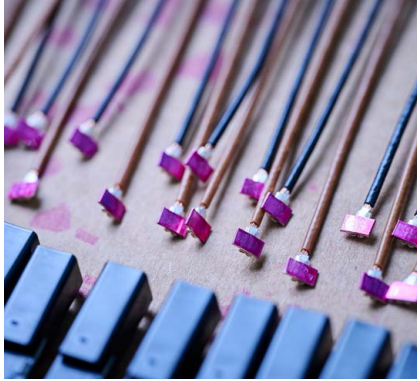

At Cablex, we specialize in the design and manufacturing of glass-integrated electrical connectors. Our solutions enable the defogging and defrosting of rear windows, mirrors, and windshields, thanks to their efficient heating interfaces and integration of vehicle antennas in automotive glass, ensuring reliable electronic communication and signal transmission.

OUR CAPABILITIES

- **Production capacity** – We can handle small or large-volume orders, with flexible MOQ, depending on customer requirements.
- **Customization** – We offer tailored solutions, including product adjustments, component sourcing and packaging design.
- **Technical support** – Our experienced team provides expert guidance, from product development through to after-sales service.
- **Quality assurance** – Every product undergoes strict quality control and testing to meet international standards.

WHY CHOOSE US?

- **20+ Years of Technical Expertise**

Proven experience delivering consistent quality and innovative solutions.

- **Flexible Production**

We tailor MOQ, customization, and delivery to your needs.

- **Reliable Supply Chain**

Smart material management ensures on-time delivery without compromising quality.

- **Partnership Mindset**

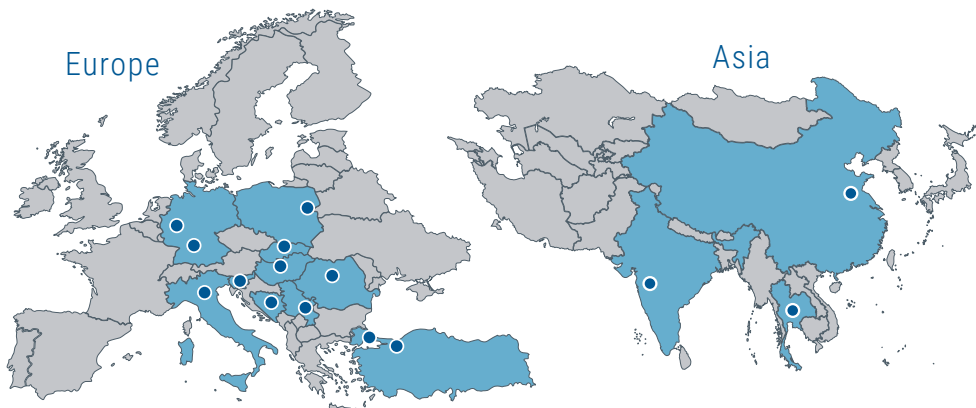

We build long-term relationships through transparency and proactive support.

- **Value Beyond Products**

From cost-savings to design input: we help your business grow.

Let's build smarter together.

From concept to completion, Cablex is here to support your success. Contact us to find out more.
